

Viro produces and customizes safes for hotels. Possible features include an electronic security key, hand-held printer and internal recharging kit for laptops and mobile. **Viro, Zola Predosa, Italy.** viro.it, commerciale@viro.it

The meTime_spa range from **Keuco** is based on an architecturally orientated interior design style. The range of fittings for the shower and bathtub was designed by Tesseroux+Partner, Potsdam. The glass panel comes in various sizes and, besides chrome-plated control elements to adjust the flow and temperature of the water, it also offers aluminium shelving on one or more levels. **Keuco, Hemer, Germany.** keuco.com, info@keuco.de

ATI Decorative Laminates has introduced life-sized murals to its FusionTech product line, in which images and colors are embedded into wall surfaces. FusionTech is graphics-driven, and any image — stock or custom — can be imbedded into the substrate. Initial substrate options for FusionTech Murals include metal, wood, FRP, glass, tile and fabric. FusionTech Murals are resistant to stains, scratches and chemicals. **ATI Decorative Laminates, Greensboro, North Carolina.** advtechnology.com
