DIGITAL PRINTING

**ATI**  
DECORATIVE  
LAMINATES

## Fusion brings your ideas to the surface.

Adaptable + Durable + Beautiful  
Architectural Surfaces by ATI –  
where every surface is a blank canvas  
waiting for a splash of inspiration.

AT ATI, we constantly strive to become your single source provider for all your architectural surface needs. Our new Digital Printing is an expansion of our Fusion program that provides solutions on a vast number of substrates with complete adaptability, repeatability and ink durability.

### THE ATI 4-STEP CREATIVE PROCESS

1

PREPARE YOUR  
**ARTWORK**  
(OR CHOOSE OURS)

2

SUBMIT FOR TECHNICAL  
**REVIEW**

3

FUSION SPECIALIST  
**CONSULTATION**

4

APPROVE FOR  
**PRODUCTION**

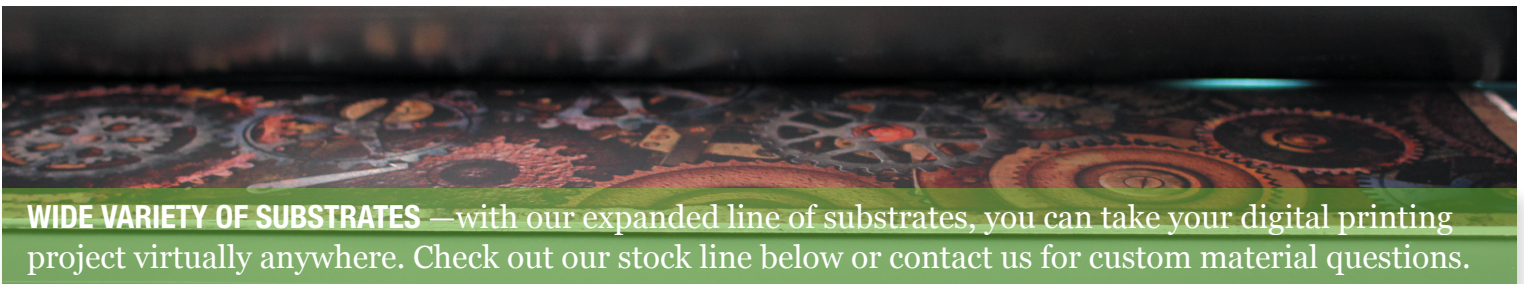

With Digital Printing, your solution can be more customized than ever before: simply choose your art and your substrate—we will create your masterpiece. A large stock library of images is available, or use your own art for an even more personalized result. And, as always, you can rest assured that with the help of our knowledgeable staff, you will receive a flawless interaction at every step of the production process.

**UV PROTECTION** —this protection allows for a more vibrant, longer-lasting image that may endure long exposure to sunlight or artificial light. Look below for outdoor suitable substrates.

**ADAPTABILITY** —What can we make for you? Digital printing allows for incredible design flexibility to help conquer a range of surface challenges.

**WIDE VARIETY OF SUBSTRATES** —with our expanded line of substrates, you can take your digital printing project virtually anywhere. Check out our stock line below or contact us for custom material questions.

## DIGITAL PRINTING SOLUTIONS AND THEIR IDEAL SUBSTRATES

**Applications where high abrasion and impact resistance is required** such as wall coverings, wainscoting, and elevator walls. Great for hospitals, restaurants and retail environments.

LuxCore Plus (A translucent FRP),  
Polycarbonate

**Interior applications where translucency is desired** such as room dividers, door and display inserts, modesty panels and transparent advertising items.

Acrylic, Clear PVC,  
LuxCore Plus, Polycarbonate

**Signage and POP applications** like kiosks, exhibits, indoor signage. Wall panels or ceiling tiles can be digitally printed with logos or branding for a variety of applications. \*Outdoor applications.

Acrylic, Sintra Board,  
\*Clear PVC, \*LuxCore Plus,  
\*Aluminum, Polycarbonate

**Artistic applications** like unique wall coverings, furniture, displays, murals, and retail backdrops.

Fusion plywood,  
LuxCore Plus,  
Aluminum Composite

**Remember!!** ATI loves a challenge. If you need a custom design or substrate, call us and we will help you find your solution.

\*\*Most of our flat or three-dimensional MirroFlex wall panels or ceiling tiles can be digitally printed for signage, logos, branding emphasis, and a variety of other applications.

## LOOKS BEAUTIFUL. PERFORMS BEAUTIFULLY.
