

September 14, 2021

To Whom It May Concern:

This statement is to confirm that Spray-Lock adhesives are well within compliance of California Proposition 65 regulations, and therefore, no chemicals in Spray-Lock adhesives are present in concentrations at, or above, the allowable California Proposition 65 specified limits.

Furthermore, all Spray-Lock adhesives are below the VOC levels of compliance with CA Section 01350, which uses CDPH Standard Method v. 1.2, 2017, for VOC concentration.

In addition, Spray-Lock adhesives are FloorScore certified for the following claim: Indoor Air Quality Certified to SCS-EC10.3-2014 v4.0.

Sincerely,

Brent Bergherm,
Adhesives Research & Development, Chemist
Spray-Lock Premium Eco Adhesives
