

Fusion Textured Metals

Fusion Textured Metals are unbacked 4' x 8' substrates with texture, adding depth and feel to the printed artwork. They are easy-to-install, no counterbalancing required, and suitable for a variety of interior applications, including: wall panels, divider panels, and displays.

By combining Artful Metals imagery with Fusion Textured Metals, you can create engaging, custom designs on a durable, scratch-resistant surface – perfect for any space. Using our proprietary Fusion dye-sublimation process, the image is embedded into the substrate, allowing the texture to come to life.

From concept to completion, your imagination is the limit. For more information on solutions available from ATI Decorative Laminates, please call 800.849.1320.

Features

-  Textured Surface
-  No Counterbalancing Required
-  Can Adhere Directly to Most Substrates, Including Drywall
