

Edge Banding

At ATI Decorative Laminates, we are committed to providing innovative products and services that resolve challenges for the A & D community. ATI's **MirroFlex® Edge Banding** and profile wrapping solution provides designers and manufacturers with the capability of enhancing their design by adding an aesthetically pleasing and durable edge to any surface.

Edge Banding and profile wrapping comes in a diverse range of finishes with a clear protective film on the front, and a standard .020" thickness. Edge Banding can be combined with pressure sensitive adhesive (250' minimum), as well as primed backing for high speed edging and profile wrapping (500' minimum).

For more information on solutions available from ATI Decorative Laminates, please call 800.849.1320.
