

Designs are limited only by your imagination!

With ATI'S MirroFlex® Custom Tooling capabilities, designs are limited only by your imagination!

Our Custom Tooling program creates branded solutions that allow customers to incorporate one-of-a-kind designs and logos into the material. This yields a functional, durable and affordable branded surface for walls and ceilings.

It's a tried and tested product that holds up even under the most strenuous use. Several finishes are available with TuffCote, which makes the product three times more scratch resistant.

ATI has designed Custom Tooling solutions for companies across the nation, from national restaurants and fitness centers to regional boutiques and retail stores. Work with an ATI sales associate to discuss your vision and have a custom tool created for your next project.

4 Easy Steps to Create Your Custom Tool

1. Consultation + Tech review
2. Design
3. Sampling
4. Production
