

Real Metal Style with a Modern, Durable Touch

NuMetal FineLine combines modern elegance with exceptional durability, offering a supermatt, highly resistant surface that excels in both form and function. Its extreme matt finish delivers a sleek, contemporary look, while the soft-touch texture enhances the user experience with a premium, high-quality feel. Advanced anti-fingerprint technology ensures the surfaces remain spotless and easy to maintain, making them ideal for high-traffic areas such as hotels, restaurants, offices, and shopping malls. Versatile in application, FineLine can be used both horizontally and vertically, meeting the demands of diverse aesthetic and functional needs.

In addition to its durability and style, FineLine is designed with sustainability and practicality in mind. Available in a formaldehyde and phenol-free ECO format, it's an eco-friendly choice for environmentally conscious projects. It also complies with food touch allowance standards, making it suitable for applications where hygiene and safety are critical. With its combination of elegance, resilience, and sustainability, FineLine is the perfect solution for creating sophisticated, long-lasting spaces.

Key Features:

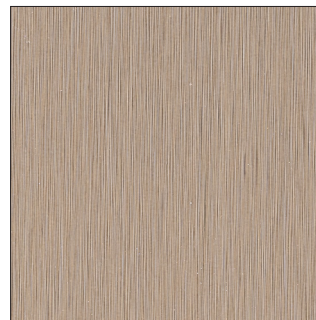

- Extremely matt, sleek finish for a modern look
- Soft-touch texture for a premium feel
- Anti-fingerprint technology for easy maintenance
- Highly resistant to abrasion and scratches
- Sustainable, formaldehyde- and phenol-free ECO format
