

## Precision CNC Metal Panels

Feature Walls, Partitions,  
Facades & more!

Fusion Screens CNC-cut metal panels introduce pattern, dimension, and architectural character to interior and exterior spaces. Precision-cut designs interact with light to create dynamic shadow effects that bring partitions, feature walls, facades, privacy screens, booth dividers and screening applications to life, adding depth and visual interest across a range of environments.

Available in multiple sizes with custom design options, Fusion Screens offer a flexible solution for architects and designers. Panels can be primed and painted in any color, incorporate branding or custom patterns, and pair with backlighting for added impact. With 20 standard patterns and mounting hardware available, Fusion Screens deliver a refined surface that balances creativity and performance.

*Beautiful and bold metal, privacy screens on glass.  
Wave pattern in Titanium Gray*
